

## COMPANY OVERVIEW

Civilised Contracting is Sydney's early works partner for builders and developers — the civil arm brought in before anything else can start on site. We handle demolition, excavation, shoring and piling as an extension of the build team, planned around the trades that follow.

Our roots in civil engineering date back to 1988, with over 35 years of hands-on industry experience across excavation, demolition, shoring and underpinning, foundations and piling, road and infrastructure works, drainage, pavements, and stabilisation. In 2023 we established Civilised Contracting as an owner-operated business — self-performing all works with our own plant and operators, with diligent execution and meticulous site management on every project.

## CORE CAPABILITIES

### EARTHWORKS & EXCAVATION

Bulk and detailed excavation, trenching, site preparation.

### SHORING & PILING

Retention systems, underpinning, CFA piling, foundation support.

### LICENSED DEMOLITION

Demolition works under Licence AD214265 (DE2).

### DRAINAGE & STORMWATER

Stormwater pits, pipes and retention basins.

### ROADWORKS & PAVEMENTS

Asphalt, concrete and road base installation.

### STRUCTURAL WORKS

Retaining walls, footings and foundation preparation.

### PLANT & EQUIPMENT HIRE

Contract or hourly wet hire — excavators, bobcats, trucks.

### MATERIAL HAULAGE & DISPOSAL

Cartage and disposal of excavated material — VENM, ENM and general solid waste — to licensed facilities.

## LICENCES & CREDENTIALS

### DEMOLITION LICENCE

**AD214265**

Class DE2

### EXCAVATION CONTRACTOR

**494095C**

NSW

### PUBLIC LIABILITY

**\$20M**

Certificates on request

## WHY CIVILISED

- Hands-on, owner-operated — on the tools and on site
- Versatile, well-maintained plant fleet
- Delivered across commercial, industrial and infrastructure sites
- Strict adherence to safety and site hygiene protocols
- Licensed cartage and disposal of all excavated material
- Reliable programme outcomes on constrained inner-city sites

## RECENT PROJECTS

**Stormwater Drainage Upgrade**

NOV 2023 – FEB 2024

Sydney Water-accredited works · Northbridge

**Scope:** Excavation and installation of sewer and stormwater pits and pipes, including site preparation and reinstatement.**Outcome:** Excavated in rock up to 7 metres ahead of schedule, minimising disruption and ensuring council compliance.**Bulk & Detailed Excavation — Industrial Development**

MAY 2024 – FEB 2025

Private developer · Roselands

**Scope:** Shoring wall, bulk earthworks, detailed excavation, back-propped and underpinned façade, roadworks.**Outcome:** Coordinated trade sequencing, safeguarded live underground services, strict safety and hygiene standards upheld.**Telecommunications Infrastructure**

MAR 2024

Engineering &amp; service delivery client · Catherine Field

**Scope:** Service locating, structural piling and engineering certification.**Outcome:** Delivered on time; all live services located; all engineering and safety requirements met.**Residential Demolition, Shoring & Basement Excavation**

MAY – DEC 2025

Private client · Freshwater

**Scope:** CFA piling, tanked basement construction with double shotcrete retaining walls, bulk and detailed excavation.**Outcome:** Executed on a constrained residential site with careful sequencing; adjoining properties and structures fully protected.**Commercial Civil Works & Excavation**

JUN – NOV 2025

Private developer · Darlinghurst

**Scope:** Underpinning, grouting, and bulk and detailed rock excavation under extremely restricted access.**Outcome:** Completed safely with full control of vibration and movement; no impact to neighbouring properties.
